■ A combination of Hokkaido Grown Ingredients

C Aronia fruit powder and flaxseed oil from Hokkaido are carefully put into the soft capsule. Combining omega-3
h fatty acids in flaxseed oil and polyphenol in aronia creates synergy effect to meet the needs of customers
a who pursue beauty and anti-aging.

r
a Omega-3 fatty acid which is the main component of flaxseed oil is material of hormones and cell membranes,
c and also is a material component of ceramide which moisturized surface of skin. However, omega-3 is very
t easily oxidized and unstable. In order to deliver the good oil = omega 3 in good condition to the skin, we blend
e aronia powder. Polyphenols in aronia powder has antioxidant action to protect flaxseed from oxidization.
r Flaxseed oil: Aronia powder = 2:1 is the golden ratio for combining both ingredients.

i
s It is a collaboration product that has been developed from the opinions from the readers and monitors of
t women's magazine "Bijin Hyakka" published by Kadokawa Haruki office. To create a beauty supplement
i women really want, we conducted a group discussion and thoroughly discussed what we need. Function of the
c supplement is of course, package design, price, quantity and etc, we discussed. The products which is
s crammed by self-will of women' age of around thirty as known as "Arasah joshi" as much as possible is
Hokkaido Flax Beauty Supplements.

Directions

Recommend to take six capsules daily.
